

# JOE COTTA

*Passion for Liberty*

As America continues to endure increasing adversity, it has become even more important to fight and protect our state and local community. The empowerment of our law enforcement, our individual freedoms, the nuclear family, and the very fabric of our American culture and heritage, are under attack.

In response, I began a campaign to reestablish liberty in Washington state, that has yielded strong endorsements, and now, a primary election victory!

Thank you all for your votes, support, and hard work. Most importantly I want to thank every person who spent their evenings door knocking for me, wore my t-shirt to the grocery store, donated money, and had the courage to talk to their friends and family about the importance of liberty.

Through our social media outlets, we released the fundraising results. My opponent spent \$122,455.36 on the primary. We spent \$10,901.05, and were only separated by 455 votes out of 36,657 (1.24%).

It received nearly 2000 impressions on Facebook, alone.

This is what a grass roots campaign that represents local, freedom-loving Americans looks like. The message of liberty resonates and the statistics above have galvanized many to join our campaign. In fact, many people found out about our campaign, because of the success in the primary. Our website traffic was even greater after ballot submission deadlines were closed, despite the wave of interest we saw, after people received their ballots.

These numbers also present a warning. After all, we did not finish in 1<sup>st</sup> place, and my opponent will no doubt continue to raise more out of district, west side money to overwhelm voters with name recognition.

We need your help more than ever. We need support to get the message out, more yard signs in front of homes, small businesses to promote our campaign, and volunteers to door knock and spread the word.

Please visit our website and click the “Join our Team” button to get on our emailing list and let us know whatever you’re willing to do for the campaign.

We are moving on to the general election!

Together, we can fight to change the policies that have especially burdened us over the last couple of years. Learn more about at [www.votejocotta.com](http://www.votejocotta.com)

Thank you, and God Bless you.
